There was silence, however, when the Washington State report was read seating the Taft delegates. This was, with the exception of the Fourth Carolina, the most bitterly fought contest before the convention. Before, the report was read Chairman Root asked that consideration be given to the reading clerk. Delegate P. N. Howard, of Jackson, Miss. arose and shouted

"I rise to a point of order. I claim that the steam roller is exceeding the speed limit."

A wild cheer went up from the Roosevelt . men, but it was only a mild zephyr to the roar that spread over the hall when Root ruled:

"The point of order is well taken. In justification, I would say that the reason is that some of us have some hope of getting home for Sunday."

For Filling Vacancies.

"Vacancies created by death or resignation shall be filled by nomination of the State Republican central committee in and for the State in which the va cancy occurs. The National Republican committee shall, however, have power to declare vacant the seat of any mem ber who refuses to concur with nominees of the convention which elected such national Republican committee and

to fill such vacancies." This latter provision is directed squarely at the members of the committee who have been decalring that they would not support President Taft

if he were nominated, notably the members from West Virginia and Pennsylvania.

The remainder of the changes in the rules are purely technical.

The minority members—sixteen in all dissented only on three important questions—reduction of the number of delegates from Southern Democratic States; granting "State's rights" to sleet in the support of the elect national committeemen, with restrictions upon the temporary convention roll, and prevention of unanimous

W. H. Coleman, of Pennsylvania, was the minority leader. Others who signed the report were John L. Hamilton, Pennsylvania; S. H. Fagle, Illinois; C. L Dotson, South Dagota; H. P. Gardner, Maine; J. G. Beauvelt, New Jersey; Charles E. Randlen, Missouri; W. S. O. Robinson, North Carolina; O. J. Larson, Minnesota; J. S. George, Kansas; C. A. Luce, Nebraska; W. S. Edwards, West Virginia; L. S. Southern Delegates.

The rule of the minority restricting Fouthern representation follows: "Resolved, That hereafter representation in the Republican national convention shall be as follows: One delegate for each Congressional district within the various States, and one additional delegate from each of said Congressional district for every 10,00 Republican votes or majority fraction thereof, cast at the last preceding Fresidential election for Republican electors, and receiving the highest vote in such district, and two delegates each from the District of Columbia, Alaska, Haweli, Porto Rico, and the Philippines."

A Pennsylvania man with a magaphone got a general laugh by shouting: "I nominate Jim Watson, of Indiana. for corner!" Watson grinned broadly at the illusion.

Victor Rosewater, chairman of the prines."

Chairman Root did not arrive until several minutes after 10, the hour set for convening. At that time at least one-fourth of the delegate seats were vacant

The delay was said to be due in a great part to the failure of the resolutions committee to clean up the plat-form. The leaders wanted to whip into shape the program so that it could be put through on a definite schedule, avoiding delays.

To Restrict Power.

The rule restricting choice and power of the national committeemen was as follows:

"Resolved, That a national committee shall be appointed to consist of one member from each State and the Dis-trict of Columbia. The convention roll shall be called and delegations from each State shall name, through its chairman, a person who shall act as the member of the national committee. Such committee shall issue at least sixty days before the meeting of the national convention's call for said con-vention and the delegates to the na-tional convention shall be chosen in such a manner and place as the com-

Taking of Western State Limit in Matter of Steam Roller Methods.

CHICAGO, June 22.—The high-tide of honesty and popular government, as it is reflected in the Chicago convention, was reached late Friday upon the roll call to indorse the action of the credentials committee on the contested seats of the Fourth Callfornia district.

But it lacked three votes of being high enough to wash out the stains of corruption and theft that have made this convention a stench in the nostrils of the people and caused its actions to be repudiated in advance by Republican States whose electoral votes are necessary to the election of the nominee of this con-

was crowded the fight of the day, the climax of the whole convention. It was attended by all the stirring scenes that have marked the progress of each day's sessions. But far greater, it served to bring to a focus the crisis which the Republican party is facing.

So desperately were the forces of special privilege pushed that the big bosses left their accustomed places on the platform and patroled the aisles alongiside their delegations of henchmen during the roil call, to threaten and cajole their forces to remain firm.

By a vote of 542, three more than needed, to 529, with seven cravens not voting, the forces of special privilege won and decided that the Republicans of California, speaking through a Statewide primary, have no recognition in a convention controlled by those representing President Taft.

The roil call was going against the road roller on this contest. A sense of decency and a revulsion against such a baid theft had seized delegations counted as solid for anything the road roller wanted. When Missouri was reached its delegation was in a wrangle. It asked to be passed, Hitherto sixteen of its thirty-six had stood for anything the bosses wanted. Now they were wavering.

Governor Hadley, of their own State.

Governor Hadley, of their own State, had just finished a masterly presenta-ion of the California contest. Many of his constituents were persuaded to fol-low him for the first time. Throughout the roll call the Missouri delegation was in a turmoil. Finally, when it was called, it was seen that it would cast the decisive vote. Stiefel would cast the decisive vote. Stiefel won. The sixteen henchmen of big business entrusted to his keeping came through. Missouri cast sixteen votes against admitting the regularly elected California delegates and saved the day to the Taft forces.
